

A TWIST-LOCK POLE THAT LIVES UP TO ITS NAME

It's a dream to work with. The first twist-lock pole that actually locks reliably and securely with a quick twist, not 1½ turns. This high-torque, heavy duty lock is made for the high performance window cleaner. When it locks, it's locked. No need to pray that it holds. Save your prayers for more noble things.

 <p>CALIFORNIA DREAM®</p> <p>Just a quick twist of your wrist securely locks it in place. Holds up to the high torque demands of professional jobs</p>	 <p>TRADITIONAL TWIST-LOCK POLES</p> <p>Turn one-and-a-half times then pray that it holds. More often than not, it will slip just when you need it to stay put.</p>
--	--

DURABLE AND SUSTAINABLE

The locking mechanism is an all-aluminum construction. Aluminum being the most recycled metal, it's durable and very sustainable. The rest of the pole is anodized .050 (wall thickness) aluminum tubing. Rigid but light.

WHIPPED CREAM SMOOTHNESS WITH CHERRY ON TOP

California Dream is our most refined extension pole. Its shape-optimized locking mechanism makes for a comfortable, streamlined design. The low-profile handle grip is a perfect complement. The easy-on easy-off **Jam-Proof End Tip** is the delicious black cherry on top. At **only \$56.00**, professional window cleaners can't afford not to buy such a smooth time-saver.
